Dear Mr. Genger:

This is in reference to the Motice of Completion of Groundwater Appropriation By Heans of Well (GN-2) document number 310782, which you filed on December 20, 1971 at 8:30 a.m. (a copy of that form is enclosed.)

A close check of the location, reveals that the "range" as indicated on the enclosed form is possibly incorrect. The "range" is indicated as 3 East, which would put the well location in Cascade County instead of Teton County. Should not the proper location be "range" 3 West instead of "range" 3 East?

If the location is incorrect, we would suggest that you notify the Teton County Clerk (Mary N. Baker) and have the correction made.

If we can be of further assistance, please do not hesitate to contact us at any time.

Sincerely,

Orrin Ferris, Chief Engineering Division Water Resources Division
